Meta Title - PhD Topic Consultation, PhD Topic Ideas - ELK Consulting Malaysia

Meta Description - ELK Malaysia offers PhD topic consultation services in which fresh and viable topics are suggested. Enquire Now.

A screenshot of a web browser displaying the 'Topic Consultation for PhD Researchers' page. The page has a header with navigation links like Home, Services, Topic Consultation, etc. Below the header, there's a main content area with several sections: 'Topic trends' (with a small icon of people), 'Visibility' (with a small icon of people), 'Express Service' (with a small icon of a document), and 'Finalize Topic' (with a small icon of a document). To the right of these sections is a 'QUICK ENQUIRY' form. The form fields include Name, Email ID (set to 'Malaysia'), Phone Number, Select Services, Mention Topic of Research, Enter Code (set to '641990'), and a 'SUMMIT' button. The browser's address bar shows the URL: http://thesisediting.in/preeti/elkconsulting.com.my/topic-consultation.php. The status bar at the bottom of the browser window shows various system icons and the date/time.

Topic Consultation for PhD Researchers

The most challenging task for researchers attempting research work for the first time is the selection of the appropriate topic in line with the area of your research. Our experts help you choose a relevant topic from your area of research.

Topic trends

Our experts have a thorough knowledge of assessing journals published in a wide range of subjects. It enables them to suggest the key topics in trend about your chosen subject area.

chosen field of research. Our experts hence suggest the topics which add value to the field of knowledge.

Viability

We ensure that the topic that we suggest to the scholars is viable to proceed over a longer duration. Scholars often end up dropping their research due to the selection of unworkable topics. We assess the viability in terms of literature review, time allocation, and expected expenses.

Express Service

We also provide express services to scholars who require topic selection in a day or two. We ensure fast track mode, and our experts handhold you through the entire process. Our experts deliver the highest quality in the given time to support topic selection for you.

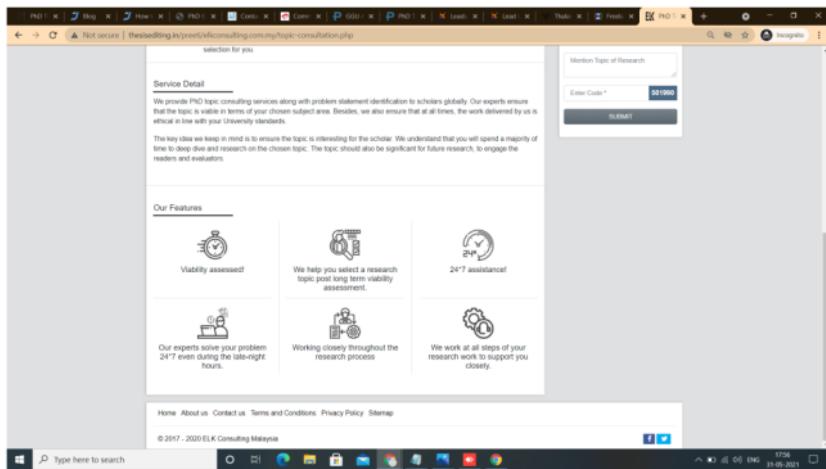

Finalize Topic

Our experts try to match the proposed topics per your area of interest. The topic is finalized after a thorough discussion with scholars based on the workability of the topic and selected, post the final review.

Service Detail

We provide PhD topic consulting services along with problem statement identification to scholars globally. Our experts ensure that the topic is viable in terms of your chosen subject area. Besides, we also ensure that at all times, the work delivered by us is ethical in line with your University standards.

The key idea we keep in mind is to ensure the topic is interesting for the scholar. We understand that you will spend a majority of time deep dive and research on the chosen topic. The topic should also be significant for future research, to engage the readers and evaluators.

Our Features

Viability assessed!

We help you select a research topic post long term viability assessment.

24*7 assistance!

Our experts solve your problem 24*7 even during the late-night hours.

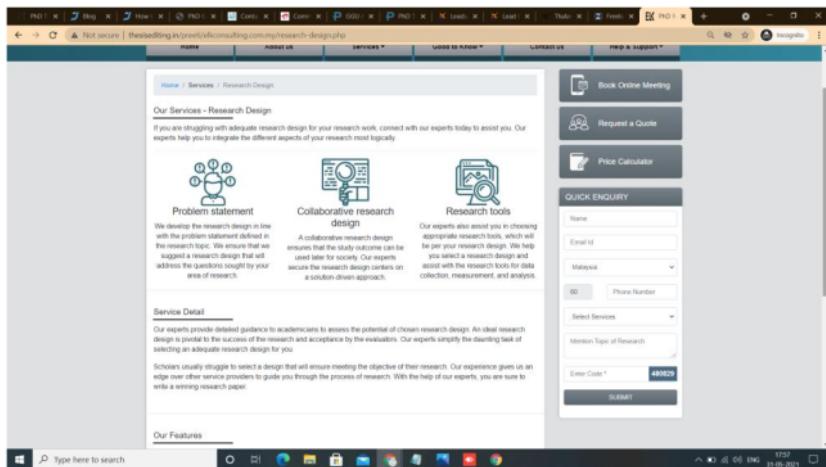

Working closely throughout the research process

We work at all steps of your research work to support you closely.

<http://thesisediting.in/preeti/elkconsulting.com.my/questionnaire-design.php>

Meta Title - PhD research questionnaire designing service, Survey questionnaire design help - ELK Consulting Malaysia

Meta Description - Do you need help with developing your PhD research questionnaire? Enquire Now.

Questionnaire Design

One of the most crucial steps while conducting a survey is the design and selection of questions. An efficient design will be able to gather data on different aspects of the research quantifying the behavior, experience, and opinions of the target audience. Our services will help you design accurate and quantifiable data..

Develop

Our questionnaires go through a series of discussions and review with every draft. From identification of the topic to finalization before commencing with the field survey, we ensure that the questionnaire is relevant and quantifiable to our users.

Maintain consistency

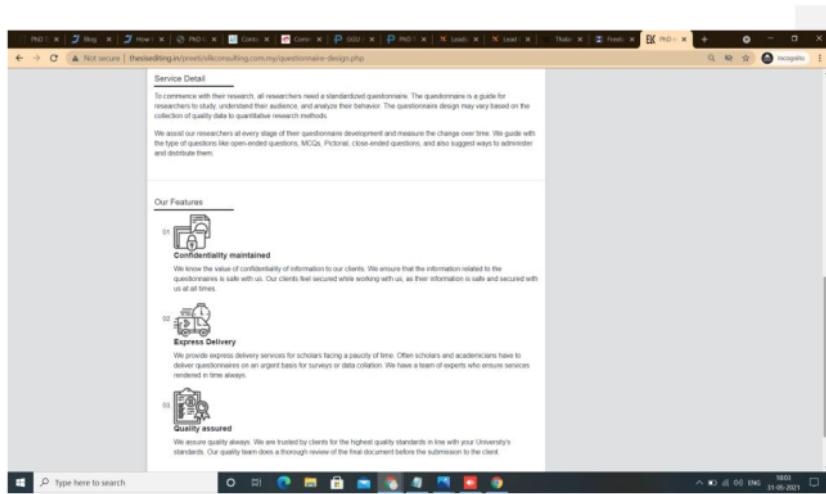

Sequencing and wording of the questions within a questionnaire may affect the response of the user at different time intervals. We, through our years of experience, provide our users to maintain consistency with the quality of questions asked.

Questions aligned to the objective

We assist in designing your questionnaire with your research objective, by evaluating the type of questions and categorization. The answer may vary whether the question is open-ended or selected from a list or a simple, Yes or No.

Interpretation

It is integral to ensure an appropriate selection of questions while designing your questionnaire. Research suggests a response to the questions depends on the formation, choice of words, phrases used and can significantly influence the outcome.

Service Detail

To commence with their research, all researchers need a standardized questionnaire. The questionnaire is a guide for researchers to study, understand their audience, and analyze their behavior. The questionnaire design may vary based on the collection of quality data to quantitative research methods.

We assist our researchers at every stage of their questionnaire development and measure the change over time. We guide with the type of questions like open-ended questions, MCQs, Pictorial, close-ended questions, and also suggest ways to administer and distribute them.

Features

Confidentiality maintained

We know the value of confidentiality of information to our clients. We ensure that the information related to the questionnaires is safe with us. Our clients feel secure while working with us, as their information is safe and secured with us at all times.

Express Delivery

We provide express delivery services for scholars facing a paucity of time. Often scholars and academicians have to deliver questionnaires on an urgent basis for surveys or data collation. We have a team of experts who ensure services are rendered in time always.

Quality assured

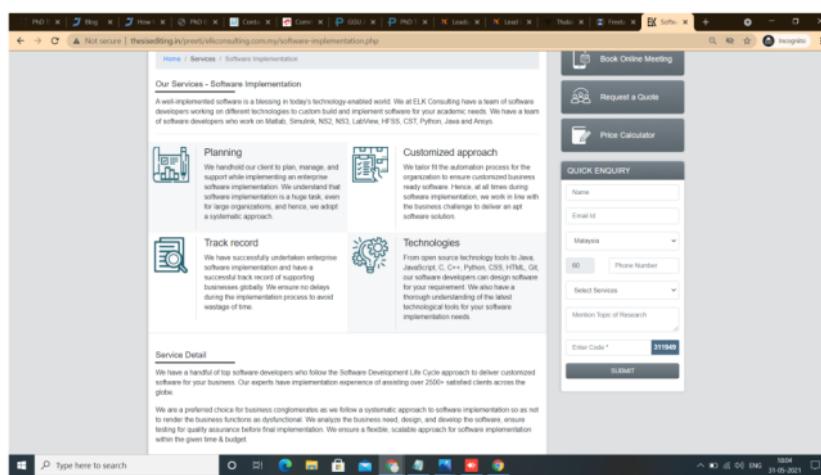

We assure quality always. We are trusted by clients for the highest quality standards in line with your University's standards. Our quality team does a thorough review of the final document before the submission to the client.

<http://thesisediting.in/preeti/elkconsulting.com.my/qualitative-data-analysis.php>

Meta Title - Qualitative Data Analysis using Nvivo Atlas.ti - ELK Consulting Malaysia

Meta Description - Are you looking for assistance with qualitative data analysis of your data? Enquire now.

Qualitative Data Analysis

Qualitative data analysis is an important tool to carry research-related work. In this methodology, the participant is an active user as compared to quantitative analysis with a focus on data. We offer qualitative data analysis using manual thematic method, using Nvivo and Atlas.Ti

Purpose and outcome

The purpose of conducting research is to understand and increase knowledge in a subject or a practice. In most cases, by observing the behavior over a period, the outcome is already known. Our experts help you in studying the purpose or the outcome.

Data and analysis

The data in qualitative research is mostly focused on exploratory information and aiming at a small sample size. Further, this data is analyzed to establish a logical connection with the help of patterns, figures, and insights.

Format and Sampling

Many times, there are no predetermined response categories, and structured data collection tools are used to responses collected from a small sample of focus user groups. The groups are selected based on theoretical calculations.

Research question and results

The variable factors are mostly controlled during the design, analysis of the questions. Hence, in most cases, the research questions are either fixed or focused on illustrative explanations or individual responses.

Service Detail

The qualitative analysis method helps researchers understand the meaning, experience of the respondents. Qualitative analysis helps to acquire a holistic approach around a particular field of experience.

We support our researchers to study patterns to acquire greater insights by analyzing the data. We help them understand the saturation point of the research and that further data will not aid or provide any additional information to the existing research.

Our Features

Satisfaction Guaranteed

Client satisfaction is 100% guaranteed with assistance from our experts.

Timely submission on priority

We take deadlines on priority for all the assignments which we complete.

Quality work delivered

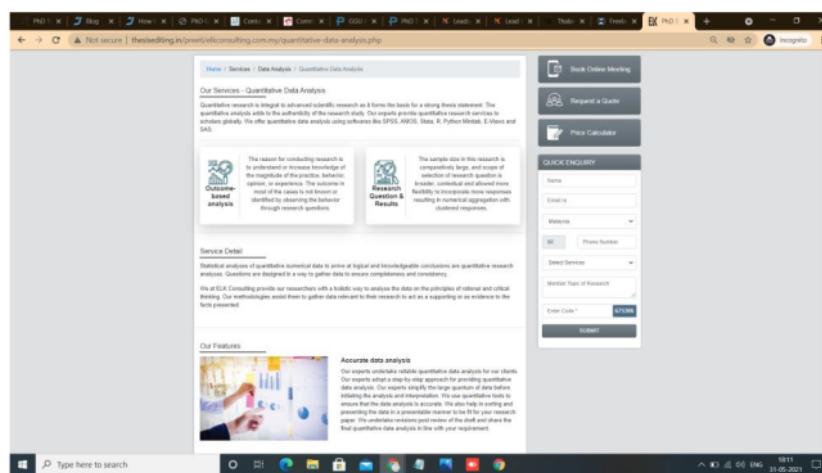

We always deliver the highest quality work in line with university standards.

<http://thesisediting.in/preeti/elkconsulting.com.my/quantitative-data-analysis.php>

Meta Title - PhD Statistical Analysis Service, SPSS, Amos, Stata - ELK Consulting Malaysia

Meta Description - Looking for help with statistical data analysis for your PhD research.

Enquire Now

Quantitative Data Analysis

1

Quantitative research is integral to advanced scientific research as it forms the basis for a strong thesis statement. The quantitative analysis adds to the authenticity of the research study. Our experts provide quantitative research services to scholars globally. We offer quantitative data analysis using softwares like SPSS, AMOS, Stata, R, Python Minitab, E-Views and SAS.

Outcome-based analysis

The reason for conducting research is to understand or increase knowledge of the magnitude of the practice, behavior, opinion, or experience. The outcome in most of the cases is not known or identified by observing the behavior through research questions

Research Question & Results

The sample size in this research is comparatively large, and scope of selection of research question is broader, contextual and allowed more flexibility to incorporate more responses resulting in numerical aggregation with clustered responses

Service Detail

Statistical analyses of quantitative numerical data to arrive at logical and knowledgeable conclusions are quantitative research analyses. Questions are designed in a way to gather data to ensure completeness and consistency.

We at ELK Consulting provide our researchers with a holistic way to analyse the data on the principles of rational and critical thinking. Our methodologies assist them to gather data relevant to their research to act as a supporting or as evidence to the facts presented.

Our Features

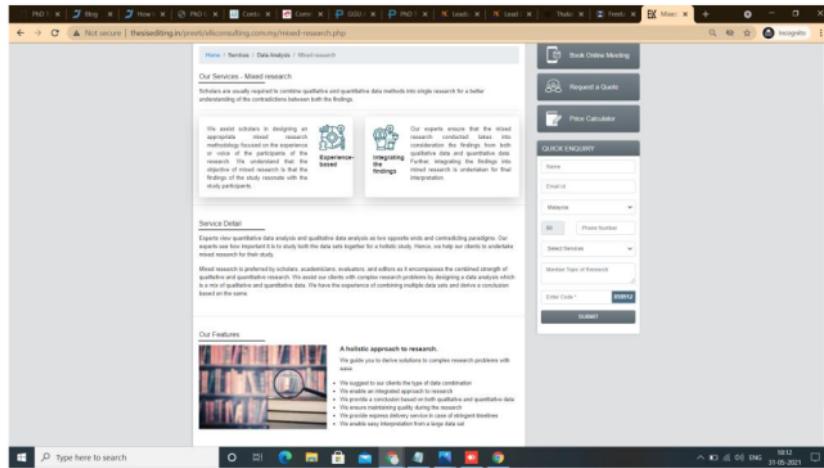

Accurate data analysis

Our experts undertake reliable quantitative data analysis for our clients. Our experts adopt a step-by-step approach for providing quantitative data analysis. Our experts simplify the large quantum of data before initiating the analysis and interpretation. We use quantitative tools to ensure that the data analysis is accurate. We also help in sorting and presenting the data in a presentable manner to be fit for your research paper. We undertake revisions post review of the draft and share the final quantitative data analysis in line with your requirement.

<http://thesisediting.in/preeti/elkconsulting.com.my/mixed-research.php>

Meta Title - Mixed research methodology research help - ELK Consulting Malaysia

Meta Description - Are you looking for assistance for PhD research which involves both quantitative and qualitative methods. Enquire now.

Mixed research

Scholars are usually required to combine qualitative and quantitative data methods into single research for a better understanding of the contradictions between both the findings.

Experience-based

We assist scholars in designing an appropriate mixed research methodology focused on the experience or voice of the participants of the research. We understand that the objective of mixed research is that the findings of the study resonate with the study participants.

Integrating the findings

Our experts ensure that the mixed research conducted takes into consideration the findings from both qualitative data and quantitative data. Further, integrating the findings into mixed research is undertaken for final interpretation.

Service Detail

Experts view quantitative data analysis and qualitative data analysis as two opposite ends and contradicting paradigms. Our experts see how important it is to study both the data sets together for a holistic study. Hence, we help our clients to undertake mixed research for their study.

Mixed research is preferred by scholars, academicians, evaluators, and editors as it encompasses the combined strength of qualitative and quantitative research. We assist our clients with complex research problems by designing a data analysis which is a mix of qualitative and quantitative data. We have the experience of combining multiple data sets and derive a conclusion based on the same.

Our Features

A holistic approach to research.

We guide you to derive solutions to complex research problems with ease.

- We suggest to our clients the type of data combination
- We enable an integrated approach to research
- We provide a conclusion based on both qualitative and quantitative data
- We ensure maintaining quality during the research
- We provide express delivery service in case of stringent timelines
- We enable easy interpretation from a large data set

Meta Title - Work Guarantee at ELK Consulting Malaysia

Meta Description - Please read through the work guaranteed we offer at ELK Consulting Malaysia.

Home / Good to Know / Guarantee

List of Guarantees

| | |
|--|---|
| Originality | Timely Work Completion |
|  |  |
| We guarantee originality in our research consulting services. Our consultants are experts in their area of expertise and are trained to offer only original consulting services. It is our guarantee that we will not offer any copied idea, topic or consultation to our clients. | Our service process is designed through the online collaborative platform Rapid Collaborate. Through this platform we keep track of each and every project and ensure that it is completed within the committed time line. Our record since 2012 for completion of projects on-time stands at 98.67%. |
| Genuine Citations Used | Query Resolution |
|  |  |
| We have access to leading academic online libraries and journal subscriptions including Elsevier, Sage, IEEE, Science Direct, Taylor and Francis, Emerald, Springer and ELK Asia Pacific Journals. For reference purpose, we use only original citations and can provide the full pdf version of the reference used on demand. | We ensure that our clients really benefit from our service and hence allow them to ask questions about the consulting offered. This is possible through the platform Rapid Collaborate and all queries pertaining to work are replied by the consultants at no extra cost. Do however note that we do not offer training on any software or tools used. |
| Security and Confidentiality | |
|  | |
| All documents, data or formula which you share with us during the course of our consulting services remain secure and confidential. They are not resold or shared with anyone for any commercial or non-commercial use. We maintain security of your documents through letting the consultants work on secured encrypted servers and disallowing them to be able to download the files. Furthermore, your details remain confidential as your name and contact details are not shared with the consultants. Do also note that we delete all documents of a projects after 90 days of the date of project completion. | |

<http://thesisediting.in/preeti/elkconsulting.com.my/revision-policy.php>

Meta Title - Work Revision Policy - ELK Consulting Malaysia

Meta Description - Read in detail about the work revision policy we follow at ELK Consulting Malaysia.

Definition of Revision
Revision for the purpose of this website is defined as minor changes, small tweaks or rearrangement of the work/consulting offered to the client. A request made by a client shall be deemed to be a revision when the original topic, research objectives and specifications of the consulting service requirement do not change.

Time Period Allowed for Revision
Our clients can request for revision in the services within thirty working days from the date of receipt of consulting services/work. Revision request received after this period shall not be deemed as revisions and additional amount may be payable for the same.

Time Required to Complete Revisions
Usually the revisions can be completed within five working days from the date of receipt of revision request at Rapid Collaborate. However, if the consultant is working on another project, this may get extended to twelve working days.

Number of Revisions Allowed
We have not capped the number of times our client can ask for revisions. As such, our clients can ask for any number of times revisions in their document. However, any revision request received after thirty days from the date of completion of the first draft may be charged for.
